Inductotherm® Powertrak®

1. 600kW , 1,000Hz with one 1,000kg Box type tilting furnace body.
2. 600kW , 300Hz with one or two 1,200kg Steel shell tilting furnace bodies.
3. 350kW , 300Hz Powermelt with one or two 1,000kg Steel shell tilting furnace bodies.
4. 325kW , 3,000Hz with one or two 300Kg Box type tilting furnace bodies.
5. 325kW , 3,000Hz with one or two 500Kg Box type tilting furnace bodies.
6. 250kW , 1,000Hz with one or two 300kg box type tilting furnace bodies.
7. 250kW , 1,000Hz with one or two 300kg box type tilting furnace bodies.
8. 175kW , 3,000Hz with one or two 100kg box type tilting furnace bodies.
9. 175kW , 3,000Hz with one 10kg Rollover furnace body.
10. 175kW , 3,000Hz with one 100kg Drop coil crucible furnace body.
11. 125kW , 3,000Hz with one or two 200kg box type tilting furnace bodies.
12. 125kW , 3,000Hz with one or two 100kg box type tilting furnace bodies.
13. 125kW , 3,000Hz with one 50kg Drop coil crucible furnace body.
14. 125kW , 3,000Hz with one 10kg Rollover furnace body.
15. 125kW , 3,000Hz Inverter only for vacuum furnace applications.
16. 75kW , 3,000Hz Inverter only for vacuum furnace applications.
17. 150Kw , 1,000Hz with one 300kg box type tilting furnace body. Recently refurbished.

Pillar Induction.

18. 350kW, 1,000Hz MK7 with one or two 500kg Box type tilting furnace bodies.
19. 350kW, 1,000Hz MK7 with one or two 500kg Box type tilting furnace bodies.
20. 500kW, 600Hz MK8 with one 1,500kg Steel shell tilting furnace body.

Taylor-made Induction.

21. 125kW, 1,000Hz Electromelt with one or two 200kg Box type tilting furnace bodies.
22. 125kW, 1,000Hz Electromelt with one 150kg Crucible push out furnace body.
23. 350kW, 1,000Hz Electromelt with one 500kg Steel frame tilting furnace body.
24. 350kW, 1,000Hz Electromelt with one or two 500kg Box type tilting furnace bodies.
25. 500kW, 800Hz Electromelt with one or two 1,000Kg Box type tilting furnace bodies (Choice of three)
26. 500kW, 600Hz Electromelt with one 1,500kg Steel shell tilting furnace body.

Other brands.

27. 125kW, 3,000Hz Radyne TC with one 10kg rollover furnace body.
28. 125kW, 1,000Hz Convertron with one 150kg Crucible push out furnace body.
29. 125kW, 1,000Hz Convertron with one 150kg Box type tilting furnace body.

Transformers.

30. Transformers & Rectifiers oil filled mains transformer rated at 675kVa with 20,000v primary , 575v secondary , Line isolated with earth screen suitable for Inductotherm® inverter without internal isolation.
31. Transformers & Rectifiers standard oil filled mains transformer rated at 700kVa with 11,000v primary , 600v secondary 50Hz (Choice of three)
32. Transformers & Rectifiers standard oil filled mains transformer rated at 1,100kVa with 11,000v primary , 2 x 600v secondary 50Hz for 12 pulse operation.

Aluminium Equipment.

33. Monometer 600kg Aluminium capacity electric resistance tilting furnace rated at 72kW for 415v operation.
34. Elmonta 300kg Aluminium capacity electric resistance Bale out furnace rated at 54kW for 415v 3 phase operation.

Bone yard, equipment for spares only.

35. Ajax Tocco , 350kw 1,000Hz Pacer inverter complete with capacitors with 700v output.
36. Inductotherm® MK4 3,000Hz Inverter complete except for capacitors.
37. Inductotherm® 1750kW Powertrak® B, 500Hz Inverter complete with capacitors.
38. Convertron 100kW Inverter complete except for capacitors.

Please note that all capacities are stated as Iron, Steel or Copper unless otherwise stated, all rebuilt second hand equipment is supplied function tested before despatch, please see our web site www.induction-furnaces.co.uk for terms and conditions.
